OUR FOOD SERVICE HERITAGE

Classic Fine Foods Malaysia is an established premier wholesale food distributor, we are a purveyor and distributor of fine foods from around the world. Our activity has started with the most luxurious restaurants and hotels in Malaysia. Providing first class reliable service delivering the best speciality fine food.

A FINE FOODS SPECIALIST

Our philosophy is simple - to bring you the very best from around the world. We work hard at sourcing great value, innovative and artisan products, building and maintaining our strong relationships with producers we are proud to call our partners.

A COMPANY LED BY OUR CUSTOMERS

We are always on the lookout for new, creative, and innovative products to satisfy your demands. We want to help you make your offerings even more unique, to help you stand out from the crowd, keeping you up to date with trends and to help you stay competitive. If you are looking for a certain something, please do not hesitate to ask us about sourcing it for you.

THE HIGHEST PERSONALIZED SERVICE

We have a highly trained Customer Service team here at the office to answer your calls as well as a specialised team of Sales Executives & Managers out in the field to help you with your needs. These Classic Fine Foods ambassadors have in-depth product knowledge and a passion for the industry.

ISO 22000 CERTIFIED

We are proud to say that we are ISO 22000 Certified. This global recognition attests to our ability to handle, store and distribute products, while offering you the guarantee of the ultimate in food safety and traceability.

AN INTERNATIONAL GROUP

CFF is owned by METRO GROUP, one of the largest and most important international retailing companies. As part of METRO GROUP's ownership, Classic Fine Foods Group is led by a METRO GROUP appointed operating Board of Directors and by the Company's senior management team. With over 25 years of operations and 10 branches in United Kingdom, UAE, Japan, Hong Kong, Macau, China, Singapore, Indonesia, Vietnam & Malaysia, Classic Fine Foods Group (CFF Group) has grown to become one of the world's leading distributors of high quality fine foods. Today, we continue to maintain our hallmarks of quality, service and integrity.

Our commitments

SOURCE THE BEST PRODUCTS FROM AROUND THE WORLD

We work hard to source great value, innovative, and artisan products to meet our customers' needs. We partner with brands and businesses that are as passionate about food as we are and who provide exceptional, unique gourmet products, from local gastronomic jewels to rare and seasonal products.

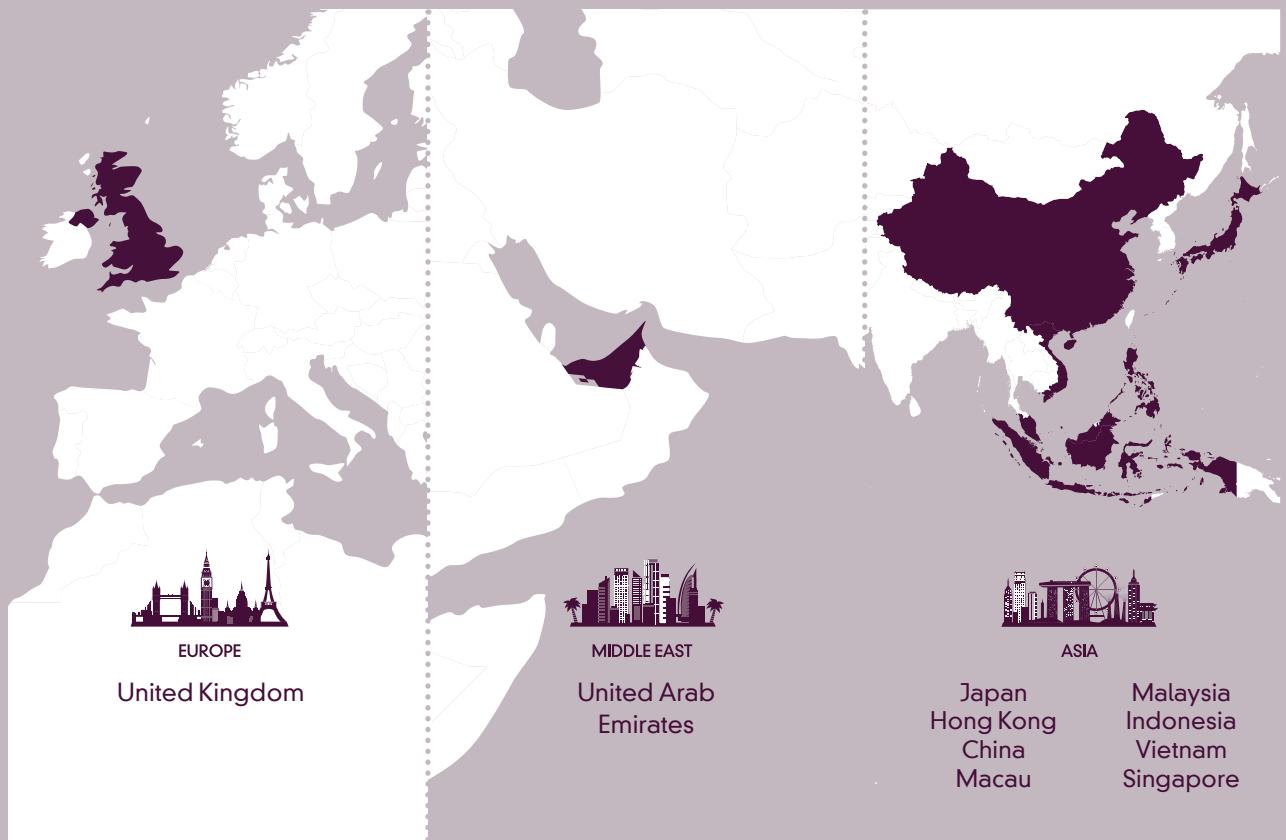

We are constantly looking for innovation in response to market trends and new consumer needs, and strive to be the first to offer innovative products that will help our customers stand out from the crowd.

WE ARE CUSTOMER CENTRIC

We are committed to building strong and long-term relationships with our customers. We supply a large variety of clients including hotels (from 5-star palaces to 2-stars hotels, as well as boutique hotels) and restaurants (from fine dining to casual dining). We also supply catering companies, bakeries, pastry shops, chocolatiers and ice cream shops, as well as fine food retailers and the most prestigious department stores.

Our clients are all at the heart of every decision we make, whether they create recipes for the most prestigious palace in Dubai, are an exclusive and intimate restaurant in Tokyo or an independent ice cream shop in London.

— CLASSIC FINE FOODS GROUP: OUR STORY —

FROM 2002: EXPANSION ACROSS ASIA

Since then, Classic Fine Foods has continued its expansion across Asia with the opening of different subsidiaries.

2002: Opening of a subsidiary in Philippines

2005: Opening of a subsidiary in Vietnam

2007: Opening of a subsidiary in Indonesia

2008: Opening of a subsidiary in Macau

2012: Opening of a subsidiary in China

2016: LAUNCH OF THE TASTELAB

Classic Fine Foods opened its first TheTasteLab by Classic Fine Foods in London in 2016, followed by the opening of another in Singapore in 2018. TheTasteLab by Classic Fine Foods is a place for chefs to meet, share their experiences and learn in a relaxed, yet highly professional environment.

2019: LAUNCH OF THE TASTELAB

After the great success of TheTasteLab London and Singapore, Classic Fine Foods opened brand new TheTasteLab by Classic Fine Foods in the Hong Kong.

2000-2001: THE EARLY STAGE
The Classic Fine Foods Company was registered in 2000 and began its commercial activity in 2001 buying the companies that formed the Olivier group. Operating in Hong Kong, Singapore and Malaysia, Olivier was the first company to develop an Asian network of fine food import and distribution companies, answering the needs of foreign restaurants expanding into Asia and the needs of local chefs looking for high quality ingredients from Europe.

2004: EXPANSION INTO EUROPE
Expansion into Europe shows the vision of Classic Fine Foods to develop such a network of subsidiaries across the globe that it would become the only Fine Foods company able to support and supply chefs with the products they needed as their careers took them from country to country throughout the world.

2004: Opening of a subsidiary in United Kingdom

2005: Opening of a subsidiary in France

2006: EXPANSION TO MIDDLE EAST

2006: Opening of a subsidiary in Dubai

2015: A NEW OWNER

Classic Fine Foods was bought by Metro in 2015, the leading international specialist in wholesale. Metro operates in 35 countries and employs more than 150,000 people worldwide.

2018: OPENING OF NEW WAREHOUSES

Classic Fine Foods is growing and the subsidiaries in Vietnam, Hong Kong and Japan moved to new facilities. Strategically located, the new warehouses offer improved capacity to support efficiency, better quality and safety control.

2020: CELEBRATING OUR 20 YEARS IN 2020!

Join us in celebrating Classic Fine Foods' 20 years in 2020! Our philosophy since the beginning stays the same, select the best products from the world and bring it to you combined with great services to help you.

Coffee

A BRAND HERITAGE THAT GOES WAY BACK FROM 1963

- Kimbo S.p.A is the company founded by the Rubino brothers in 1963 that gave birth to the Kimbo brand, a name that evokes the esoteric origins of coffee beans.
- In 1994, Kimbo took second place in the Italian retail sector in the packaged coffee market, a position Kimbo has held until now. The increasing success is certainly due to the rigorous loyalty, tradition, and excellent quality, but also the strong media presence and investments in the operating infrastructure.

A TRUE NEOPOLITAN COFFEE TASTE

- Kimbo's mission is to spread excellent Italian coffee all over the world and make a top-end product available to customers.
- A product which is inspired by Neapolitan tradition, authentically made in Italy and based on the most advanced technology which respects people and the environment.
- A sense of commitment and approach to preserve and enhance the distinctive characteristics of an Italian espresso coffee that adapts to new tastes, making for a product that is always up-to-date.

EXQUISITE RAW MATERIALS & COFFEE SELECTION

- Kimbo S.p.A. has dedicated a lot of attention to the selection of green coffee from those countries that actually produce it. The cultivation phases are monitored carefully and subject to multiple checks. This is how the plant can grow healthy and produce excellent quality of red berries before finally shipped to Italy.
- The two qualities of coffee Arabic and Robusta are meticulously selected on site where samples are to be sent in the factory in Naples for product and chemical tests to give their approval of the raw material.

PROFESSIONAL LINE

TOP FLAVOUR 100% ARABICA

Excellent blend of 100% natural sweet Arabica coffee and aromatic washed Arabica. A pronounced full-body and fine acidity reminiscent of fresh flowers, complete with a gentle sensation of toast and predominant almond notes. Persistent aftertaste with a hint of plum.

014015
1KG

PRESTIGE MEDIUM ROAST

Premium blend predominately Arabica based with 65% Arabica and 35% Robusta. Very balanced with medium body and sweetness, it contains a soft density with pleasant notes of caramel and hints of freshly baked cookies and dried fruit. Refined acidity with a persistent and spicy aftertaste.

014009
1KG

PAPER PODS

ARABICA PAPER PODS

A delicate blend of 100% natural sweet Arabica coffee and aromatic washed Arabica beans. A pronounced full-bodied coffee, with fine acidity which recalls fresh flowers and with predominant almond notes reminiscent of toasted bread. Persistent aftertaste with hints of citrus fruits.

014278
15 PODS/PACK

DECAF PAPER PODS

Create great coffee with a rich aroma and the full flavour without the caffeine. Each single serving contains a perfect 7 grams of ground coffee, individually wrapped in a protective atmosphere to keep it just as fresh as the day the beans were ground!

014281
15 PODS/PACK

CAPSULES

SINGLE SERVING NESPRESSO COMPATIBLE CAPSULES – BARISTA

An excellent blend of 100% Arabica coffee. Its exquisite aroma is reminiscent of flesh flowers with faint undertones of toasted bread.

014492
10PCS/PACK

SINGLE SERVING NESPRESSO COMPATIBLE CAPSULES – INTENSO

A dark roasted espresso, typical of the Neapolitan tradition. Features an intense aroma with full-body and a lingering aftertaste with notes of dark chocolate.

014493
10PCS/PACK

SINGLE SERVING NESPRESSO COMPATIBLE CAPSULES – DECAF

An advanced extraction process removes the caffeine from the blend while preserving all its flavour and aroma. A full-bodied and highly appealing coffee with a lingering aftertaste despite the fact that it is caffeine free.

014709
10PCS/PACK

ESPRESSO AROMA GOLD (100% ARABICA)

Fine blend, obtained from 100% Arabica coffee selected directly in the countries of origin. It is the result of a perfect combination of sweetness and fine acidity. Delicate notes of fresh flowers accompanied by pleasant almond finish. Sweet and refined aftertaste

HOUSE BLEND COFFEE (ROASTED IN MALAYSIA)

A pleasant blend of carefully selected coffee beans from Brazil & Java. BRAZIL – 10% and JAVA – 90% Brazil coffee is low in acidity – it has a soft & nutty note with nice bittersweet chocolate tastes. Java coffee beans take pride in good, heavy body & a sweet overall impression. They are smooth & supple with a lasting finish & subtle herbaceous notes in the aftertaste. Melding the unique qualities of these 2 coffee types, this harmonious blend brings you a smooth heavy body with a strong flavour and a pleasant bitter-sweet finish.

HOUSE BLEND COFFEE BEAN

Conveniently packed in a sealed aluminum foil-lined bag. Comes with a one-way valve that allows carbon dioxide to escape from the freshly roasted coffee beans, retaining the quality of the coffee for an extended period of time.

MIX-COFFEE

MIX-COFFEE GRD
500G

Folliet Gourmet Coffee has been established since 1880, roasting coffee in small batches where coffee beans are carefully selected and ethically sourced from Vietnam using traditional French roasting techniques to create rich and intense tastes. The coffee beans are originated exclusively and directly from family growers in the Vietnamese mountains.

The concern for the environment is a fundamental guiding principal for Folliet, they recycle 100% of the organic waste produced by their factory in the Mekong delta by producing their own organic fertilizer, they have been continuously helping the coffee growers to develop good environmental practices.

- Local & ethical sourcing
- Freshly roasted in Can Tho, Vietnam
- No chemicals
- No pesticide residue

Tea

THE AUTHENTIC PLEASURE OF TEA

- Dammann Frères, with headquarters in Orgeval in the Parisian region, was the first company to introduce tea in France in 1962 and to implement tea with natural flavouring in the early '50s.
- In the '80s, the company launched the Cristal bag that combines the individual tea bag ease of use to better and more pleasurable tasting. Today the company is run by the third generation of the Jumeau-Lafond family, with Didier Jumeau-Lafond as its President. Distributed all over the world, Dammann Frères produces a vast selection of exclusive tea mixtures of individual origin and flavoured teas.

THE BEST FROM THE WORLD

- Dammann Frères, through the creation of the first modern flavoured teas and meticulously seeking the best teas from around the world, has established itself as a leading supplier of teas dedicated to professionals working in the hotel and catering business.
- In France and the world over, in numerous renowned establishments, the expertise of Dammann Frères is used to select and prepare teas and herbal teas whose flavour and quality are praised by all.
- Their experts travel the globe, flavourist engineer develops blends delicately scented and their blender assembles season after season in the art of mixing teas to ensure harmony of tastes and always flavours identical.

A GREAT PRODUCTION SITE IN FRANCE

- Now located in the west of Paris, in Dreux, more than 160 people involve in multiple areas of the company. Each week, hundreds of items are tasted and tested that guarantees impeccable quality. The teas are then sorted, graded, mixed, assembled, fragranced, carefully wrapped and packaged for distribution to more than 60 countries throughout the world.

ORIGIN OF THE 1872 CLIPPER TEA CO.

- In 1872, a young man named Balage Porolis de Silva planted his roots in Singapore, bringing with him his love for Ceylon's finest teas at a jewellery boutique along High Street. Hailing from Sri Lanka where having tea is a daily ritual for relaxation and enjoyment, he wanted to enhance his customers' appreciation of jewellery with tea. This family-run business has kept his legacy of artistry and craftsmanship alive through five generations.
- The name, 1872 Clipper Tea Co., pays homage to the historic Clipper ships that raced to carry the freshest teas to all corners of the world.

EXCUSITE QUALITY CONTROL

- The 1872 Clipper Tea Co. is registered in 1988 and started in foodservice and OEM business after seeing the potential in tea business and is currently being used by 300 cafes, restaurants and hotels.
- With a factory in Sri Lanka, they are vertically integrated, having control from sourcing of tea to cleaning the teas and packaging. This reflects in their regular shipments that provides assurance of stocks availability and freshness. They also have a strict quality assurance where their factories are HALAL, ISO 22000 certified and non-GMO verified.

AFFORDABLE LUXURY

- The 1872 Clipper Tea Co. emphasize on affordable luxury brand that focuses on quality tea and customer experiences. In other words, they are not found in supermarkets as the brand is not a mass market brand.
- Brand positioning mainly focus on expressing young and adventurous with an expression of refined taste!

Syruks

A FAMILY BUSINESS SINCE 1885

- Giffard is a family owned business based in Angers, France. Founded in 1885 by Emile Giffard, the company has grown and now supplies the world's greatest cocktail bars with a range of syrups.
- Five generations later, the family business still bears the GIFFARD name and is proud to uphold the high standards of quality instilled by its original creator.

THE ART OF FLAVOUR

- Created for professional bartenders and baristas, Giffard syrups are rich in flavour and bright in colour, and are made from 100% French sugar beet. The high temperature pasteurisation process ensures a long shelf life and the freshness of the flavour without the need of preservatives. Thus, this result in a large range of syrups consist of pure sugar and highly flavoured syrups which have been pasteurised to ensure a perfect preservation.
- Giffard has always sought the best natural ingredients for all of their products and has brought that passion to the world of mocktails, where fresh flavours and refinement are paramount in the Art of Flavour.

SYRUPS PRODUCED IN ANGERS, IN THE LOIRE VALLEY

- The secret of our products' unique taste lies on the expertise of the Giffard entire team who craft the syrups every day.
- Giffard produce their syrups in Angers, France. The main reason is because it's ideal location in the heart of the Loire where the valley is an exclusive living link to the local fruit growers. The company primarily buy from local and French producers, depending on the chosen varieties as they select the best quality of fresh, ripe fruits and plants.

FRUITS AND PLANTS

A very large range of pure sugar, highly flavoured and colourful syrups which have been pasteurized to ensure a perfect preservation. Fruits and plants range are used in mocktails, cocktails, smoothies, milkshakes or granitas.

SPECIALTIES

When you need a fruit puree, use only the best.

Giffard Fruit For Mix is your solution to great fruit taste, real pulpy texture, and shelf stability.

Fruit FOR Mix

BANANA

Appearance: velvety champagne yellow.
Scent: fresh banana, not over-ripe. Sweet and slightly caramellic scent.
Taste: caramelized dessert-like banana. Melting-soft texture and slightly starched finish that lasts on the palate.

GIF-00100

1L X 6 BOTTLES X 1 CARTON

MANGO

Appearance: intense yellowy orange
Scent: very ripe mango, peppery note of the skin.
Taste: fruity ripe mango with generous texture of the pulp.

GIF-00101

1L X 6 BOTTLES X 1 CARTON

PASSION FRUIT

Appearance: bright saffron yellow.
Scent: passionfruit with musky and tart fragrance.
Taste: typical passionfruit with juicy fresh and zingy gourmet pulp of the fruit. Pleasantly sour with a slightly astringent finish (notes from the seeds).

GIF-00102

1L X 6 BOTTLES X 1 CARTON

PEACH

Appearance: orangey yellow.
Scent: Fresh and juicy peach, slightly floral.
Taste: peach juice with very light acidity. Satisfying and aromatic smooth texture. Light vegetal note of the skin and the stone (green almond) on the finish.

GIF-00103

1L X 6 BOTTLES X 1 CARTON

STRAWBERRY

Appearance: deep alizarin red.
Scent: Fresh crushed strawberry with fruity sweet and fragrant.
Taste: Satisfying length of fine strawberries on the palate. Sweet, sour and aromatic and light vegetal note on the finish.

GIF-00105

1L X 6 BOTTLES X 1 CARTON

BLUEBERRY

Appearance: Intense and deep purple.
Scent: Fruity and lively blueberry with a fresh and vegetal touch.
Taste: Typical of ripe blueberries and balanced by refreshing note of fern and undergrowth. It has a persistent, greedy and mouth-watering tart finish.

GIF-00106

1L X 6 BOTTLES X 1 CARTON

RASPBERRY

With Raspberry puree (57%). A biscuit note nicely balanced with the subtle acidity of a freshly-picked raspberry. Lasting velvety texture with a floral note (honey) on the finish.

GIF00104
1L X 6 BOTTLES X 1 CARTON

PINEAPPLE

With pineapple puree (54%). An explosion of exotic fruits with a hint of acidity (lime). A sensation of fresh and juicy pineapple with a vanilla note that contributes to the gourmet profile

GIF00108
1L X 6 BOTTLES X 1 CARTON

SOUR APPLE

With apple puree (60%). Light notes of caramel, brown sugar and baked apples appear while the sour aromas linger. Refreshing, balanced and complex, combining several shades of apples in one drink.

GIF00109
1L X 6 BOTTLES X 1 CARTON

COCONUT

Appearance: Milky white, with grated coconut shavings.
Scent: Gourmet coconut cream, fresh and milky notes of young coconut flesh.
Taste: Creamy and rich taste with coatings of coconut. Not extremely sweet but with a very greedy note of confectionery of the coconut flesh. The long finish is milky with a pleasant note of toasted coconut.

IMAGINING THE BEST OF CHOCOLATE SINCE 1922

- As a partner to pastry chefs since 1922, Valrhona believes that, together, they can make the best of chocolate.
- From cocoa beans to chocolate bar, Valrhona masters every step in the production process.
- Thanks to their wide range of couvertures, bonbons, decorations and other chocolate products, they are able to make the best of chocolate and expand aromatic profiles.

SOURCING AND COMMITMENT

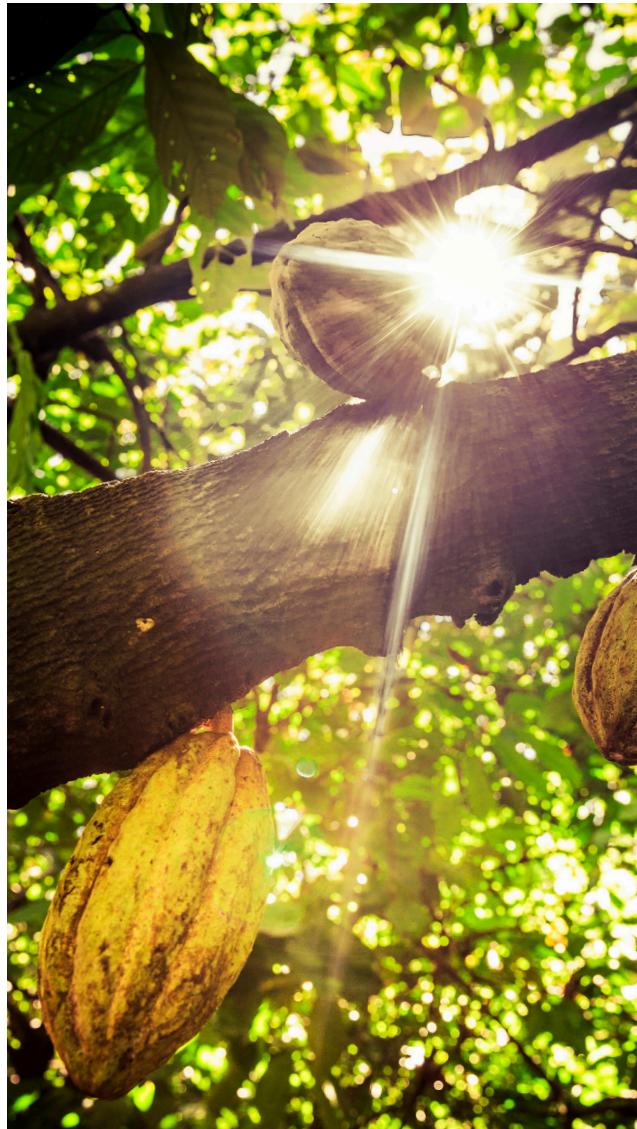

- Valrhona not only puts effort into preserving cocoa with great aromatic potential, but also works to have a positive impact on the communities in which the cocoa is produced.
- This can be achieved by assisting producers, cooperating to innovate with planter partners, forming multi-year partnerships with farmers, supporting the cocoa industry, improving the populations' living conditions, and respecting plantations' environment and employment laws.
- Valrhona has already considerably reduced gas emissions, waste production, and energy and water consumption on industrial sites.

VALRHONA RANGE FOR PROFESSIONALS

- Pastry chefs and chocolatiers can select a chocolate based on taste, origin or technical characteristics when choosing a chocolate from Valrhona.
- Valrhona has created several families of chocolate couvertures to enable professionals to find the products that best correspond to their needs and transform these chocolates creatively.
- This includes Grand Cru Blends, Single Origin Chocolates, Double Fermentation Range, Professional Range, Inspiration Range and more.

100% PURE COCOA POWDER

VALRHONA COCOA POWDER 100%

A very pure and intense cocoa taste, with a very warm red mahogany color. Valrhona offers you this 100% cocoa sugar-free powder, with exceptional finesse and intense flavor for delicious chocolate drinks or for gourmet recipes.

ITO EN

INTENSE, COMPLEX AND AROMATIC WITH A LINGERING RICH AFTERTASTE

Tencha that is stone-grounded immediately before shipping is called Matcha. The tea leaves are shade grown with new shoots harvested and steamed. The leaves are then dried and ground into powder form. The green tea is placed directly into a matcha bowl and whisked with small amounts of water. Because you ingest the whole leaf, not just the brewed water, the health benefits of Matcha exceeds that of regular green tea.

Soft Serve and Yogurt Products

MORE THAN 40 YEARS OF INNOVATION

- Frosty Boy is launched in 1976 to meet the growing demand for a better quality and more affordable range of soft serve ice creams.
- Frosty Boy's passion is backed up by strong expertise and experience with highly qualified food technologists that lead their Research and Development department. They also collaborate with customers, specialist companies and academics worldwide to access the latest food trends, new raw materials and innovative technologies in the food industry.

STATE OF THE ART FACILITIES

- Frosty Boy factory is located at Yatala, 30 kilometres South of Brisbane, boasts state-of-the-art equipment and facilities.
- Their batching, blending and filling processes are computer-controlled resulting in great precision and accuracy. The laboratory ensures that every product leaving the factory has been tested for quality and integrity
- Until today, Frosty Boy has created products and brands that are loved by customers, delivered on time and manufactured to the highest standards..

WHY CHOOSE FROSTY BOY?

- Frosty Boy is Australian made and owned with no trans-fat, no preservatives, gluten free and zero artificial colours.
- 👉 Fuss Free Application - Just add water. Thus, no hidden costs. With zero complexity, it's able to deliver consistent results.
- 👉 Scrumptious Creamy Base - Bases are exceptionally creamy as they contain the freshest milk from Australia.
- 👉 Easy Storage, Cost Effective - No refrigeration required. Due to no special transport needed, it is also less costly.

FROZEN YOGURT BLEND

NOVA YOGURT (WITH PROBIOTIC CULTURES)

A Yogurt flavoured soft serve with an economic blend of dairy and vegetable fat. Nova Yoghurt has a clean, smooth yoghurt-taste, with a hint of acid and lots of aroma. It contains a blend of 4 different strains of live probiotic cultures & prebiotic fibre. 98% Fat-Free.

FAMILY HERITAGE BRAND

- Didier Goubet is a family brand since 1993 and pioneer of a premium Vine Grape Juice made as a "Grand Cru" from Bordeaux.
- Since 2005, Didier GOUBET has been developing varietal grape juices in an artisanal way and on the model of the elaboration of great vintages. Old vines, small yield and gentle pasteurization are the secrets of the richness and aromatic persistence of Didier Goubet juices.

ALCOHOL FREE ALTERNATIVE TO WINE AND CHAMPAGNE

- Didier GOUBET grape juices allow people who can't drink alcohol the option to have a quality wine like drink. Their products are also targeted at people who can't drink such as allergies, cultural reasons, and even pregnancy.
- The trends that are fast gaining traction in 2020 are mainly related to health and fitness where people are drinking less alcohol than ever before.

GREAT HEALTH BENEFITS

- Didier Goubet is made with 100% organic grape juice and are pressed immediately after harvest. They contain not only zero alcohol, but also zero additives/sugar.
- Grapes are rich in vitamins, polyphenols, antioxidant, magnesium and etc. with a low glycemic index. Didier Goubet signature and unique pasteurization maintains all the nutritional benefits of the grape so that consumers can enjoy all the benefits of grapes straight from the bottle.

NOTHING BUT FRESH FRUIT

- Le Fruit is a healthy, authentic and sustainable brand from Vietnam that produces its juices in the heart of the lush Mekong Delta in partnership with small family owned farms in Vietnam.
- The brand uses exclusively fresh fruits locally sourced. Being close to the tropical fruit farms means that they can pick ripe sun-kissed fruits and quickly transport them to their kitchens. Fresh Fruits are squeezed, crushed or simmered within one or two days after harvesting.

THE STORY BEHIND LE FRUIT

- Since the creation of Les Vergers Du Mékong, which is the parent company for the brand Le Fruit, The founder, Jean-Luc VOISIN has made a clear choice for long-term sustainable development by promoting sustainable farming and local sourcing proving that this is both achievable and profitable in today's consumer driven Asia.
- Jean-Luc created a unique business model from the early stages from the farm to the fork as the company integrates a strong local supply chain, the processing of natural products and the direct distribution in Vietnam and Cambodia in 2000.

B-CORPORATION CERTIFICATE

- Le Fruit is the first company in Vietnam and Cambodia that has received a B Certification, joining a global community of over 2800 certified B Corporations in 150 different industries.
- The B Corp status reflects an evaluation of our social and environmental commitments that cover all of our company's aspects starting from our active support for a local, eco-friendly and family-owned agriculture in the Mekong Delta.

DRINKS WITH THE TASTE AND IMAGE OF THE SICILIAN TRADITION FOR 70 YEARS, WITH ORIGINAL RECIPES AND NATURAL INGREDIENTS.

The new line of Chioschi Le Selezione drinks is a true hymn to authenticity and Sicilian tradition, with a touch of modernity that makes them even more irresistible. This extraordinary range of drinks is the result of a careful reinterpretation of the recipes of the past, where the passion for genuine flavor is the protagonist. The successful ingredients are simple but essential: authentic flavor and only the best fruits of Sicily.

The authentic taste of the best fruits of Sicily. Chioschi Le Selezione soft drinks are presented in fine and elegant glass bottles, with an exclusive design that underlines their importance. These bottles, in addition to capturing attention, best preserve the authenticity and freshness of the drinks inside.

SPARKLING ORANGEADE

Orangeade is a party on the table. It represents a hymn to Sicily, to its fertile land and its generous sun, which offer high quality oranges. It is a celebration of authentic taste and an invitation to explore and appreciate the culinary richness of this region of Italy.

BIB00001
200ML X 24

SPARKLING LEMONADE

It is a testament to the art of cultivating and combining flavors to create a drink that captures the essence of a region and makes it accessible to all. It is a celebration of authentic taste and a promise of freshness in every sip.

BIB00002
200ML X 24

SPARKLING LEMON AND GINGER

Lemon and Ginger Polara is a tribute to the art of flavor blending, a celebration of high-quality ingredients and an invitation to explore the culinary delights of distant lands. Every sip is a feast for the palate, an experience that will transport you to exotic places and make you discover the authenticity of natural flavours.

BIB00003
200ML X 24

SPARKLING LEMON TANGERINE

Inside is the intense scent of Sicilian citrus fruits carefully selected by Polara. This drink, prepared with 17% real mandarin and lemon juice, is a modern homage to the renowned drink from traditional kiosks.

BIB00004
200ML X 24

SUSTAINABILITY

- We strictly apply the integrated production rules because they allow us to have a really low environmental impact.

Like for the Precision Farming: a system addressing the right number of seeds in every square metre and leads the irrigation systems in order to avoid any waste of water.

AND THE SUPPLY CHAIN? LET'S CUT IT SHORT!

- Our cultivation and processing of soy and rice occurs completely in the space of 38km: this short supply chain allows us to reduce CO2 emissions that are measured and certified as part of the EPD (Environmental Product Declaration) international system.

Furthermore, thanks to the LCA (Life Cycle Assessment) method, we can quantify the energy loads and the impacts of our products.

WE CULTIVATE THE CHANGE.

- Change is in our nature. Maybe the most important part of our nature. Because it translates a wish into a conscious choice and, then, in a concrete action. And behind our idea of change there is the wish for a world living better and in which living better. We just need to find the right instruments to implement it.

OraSi chooses to do it constantly, by adapting to every moment of your day and every lifestyle.

Coffee Machine

la marzocco

HISTORY OF LA MARZOCCO

- Founded in 1927 by Giuseppe and Bruno Bambi, La Marzocco had its beginnings in Florence, Italy, birthplace of the Italian Renaissance and home to such geniuses as Leonardo da Vinci, Michelangelo and Brunelleschi who created some of the most celebrated works of art in the world.
- In 1939, La Marzocco developed and patented the first coffee machine with a horizontal boiler, now an industry standard. This was the first of a series of important innovations, later to include the dual-boiler system with saturated brewing groups.

LA W COMMITMENT

- Tradition and a passion in the search for quality and superior reliability are factors which have always distinguished and interested the entire company. Even today, highly specialized personnel supervise each stage in the production of every single machine, hand-crafted to order for each and every client.
- In this way, Giuseppe Bambi's great experience and professional pride live on after over ninety years. La Marzocco remains an artisan company, while offering important advancements in equipment technology to its customers and in the industry.

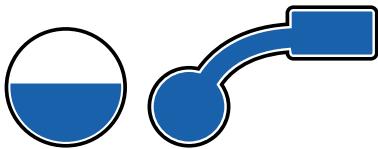

WHY LA MARZOCCO?

- All La Marzocco machines are equipped with some distinctive technologies that are widely appreciated by baristas from all over the world. These technologies are core to what makes La Marzocco machines perform the way they do.
- La Marzocco offers a wide range of machine configurations to match the specific needs of your business. The more manual configurations allow baristas to express their craft through full control of the brew parameters. The more automatic configurations, the more the barista can focus on other tasks while the machine delivers consistent drinks.

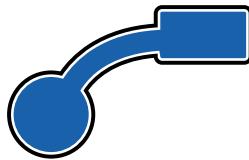

Machine Configuration

Dual Boiler System

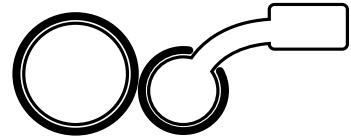

This technology has been patented by La Marzocco in 1970 from an idea of its founder Giuseppe Bambi.

The rationale behind the Dual Boiler System is that the brewing temperature is as important as, and possibly even more important than, the brewing pressure. Having a boiler dedicated to steam and hot water and second to coffee water allows the barista to directly adjust brewing temperature and keep it more stable and consistent.

Saturated Groups

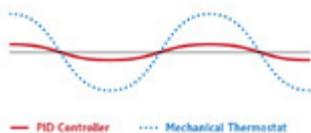

Developed alongside the Dual Boiler System, the Saturated Groups technology is based on the presence of just water and no air inside the coffee boiler and brew group. It has been proven that having a water/air mixture inside the coffee boiler and the group reduces the temperature stability of the machine. Moreover, the group is directly attached to the coffee boiler, creating a single chamber so that water circulates continuously, maintaining consistent temperature.

Insulated Boilers

La Marzocco believes in and promotes saving energy.

With the aim of always improving the temperature stability but always keeping an eye on energy consumption, all professional and home machines are equipped with thermal insulation foils around coffee and steam boilers. Insulation foils are designed in a way that heat losses are minimized, increasing the machine's energy efficiency by around 20%.

PID

The PID Controller employs an algorithm to regulate when and for how long the heating element is engaged in the brew boiler.

The PID controller allows more efficient and stable regulation of energy. With this level of control, temperature variability is reduced dramatically, making for a more consistent brew temperature.

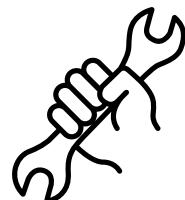

The barista is able to adjust the brew boiler temperature to a precise numerical value through the machine's electronics.

Stainless Steel

In an aim to equip every machine with the highest quality materials, La Marzocco uses only surgical grade AISI 316L stainless steel for its boiler production. This material drastically reduces the amount of heavy metals that could get dissolved into the water used for brewing coffee and producing steam.

La Marzocco's R&D department is continuously working on minimizing the number of components inside the machine that are not made of stainless steel.

Handmade Construction

Every La Marzocco is unique and built according to the needs, desires and requests of each final customer since over 1500 different machine configurations are available.

Within the production floor, no robots are involved in the process and every machine is the outcome of the careful and passionate work of the hands of more than 10 expert craftsmen. Skilled artisans and experienced workers oversee every stage of the production process which lasts on average for 2 weeks.

automatic

Leva / Lever Actuated Machine

The barista can control the pre-infusion pressure and time, the maximum pressure of the shot and the volume of the shot according to how he adjusts the spring and pulls the lever.

Abr / Auto Brew Ratio With Scales

The barista starts the shot and the machine stops it based on the weight of the coffee in the cup, determined by the integrated scale in the drip tray to achieve the preferred coffee weight.

Mp / Mechanical Paddle

This configuration allows the barista to manually control pre-infusion pressure and time during the shot. The barista starts and stops the shot to achieve the preferred coffee volume.

Av / Auto-Volumetric

The barista starts the shot and the machine stops it based on the pre-programmed volume of water running through the coffee to achieve the preferred coffee volume.

Ep / Electronical Paddle

This configuration is based on the pressure profiling technology, giving the barista the possibility to modulate the pressure at every stage of the extraction. This can be manually controlled by the barista or automatically performed by the machine.

Ee / Semi-Automatic

The barista starts and stops the shot with either a push button or paddle interface to achieve their preferred coffee volume.

Products Overview

Most machines are available in different configurations, in order to match the different needs of each customer. Aside from configurations, some La Marzocco machines are also available in X version: X machines represent the 'exceptional' model in terms of features to provide the greatest level of control and precision.

AV3 GROUP
LAM-GB/5 X AV3

AV2 GROUP - ABR
LAM-GB/5 X AV2 (SCALE)

AV3 GROUP - ABR
LAM-GB/5 X AV3 (SCALE)

Available Configurations: AV | ABR

The GB5 X is designed with traditional Europe- an style and is dedicated for those locations with an eye on classic aesthetics but that still demand the highest level of performance. The GB5 X can be identified by the white logos and lilies, it combines advanced La Marzocco pro- prietary electronics with the industry-leading temperature stability and hydraulic systems

Available Number of Groups: 2 | 3

to always ensure maximum consistency. The ma- chine features independent boilers allowing for different brewing temperatures on each group; a convenient hot water economizer to set the hot water temperature as well as a dynamic pre-heater for additional and unsurpassed temperature stability. In ABR configuration the GB5 X is La Marzocco's most elegant machine

equipped with patented scale technology. The second generation GB5 is the first series of La Marzocco machines equipped with a water sensor that measures the conductivity and hardness of water as it enters the machine. This information allows the user to monitor wa- ter quality and verify filtration performance without the need for additional testing tools.

Dual PID (coffee and steam)

Allows you to electronically control coffee and steam boiler temperature.

Pro Touch Steam Wands

High performing steam wands that are cool to the touch.

Easy Rebuild Steam Valve

Engineered so the valve can be serviced directly from the front of the machine without needed to be removed.

Pro App Compatible

Electronic board that allows connectivity with the La Marzocco Pro App.

Piero Group Caps - AV, ABR

Re-engineered internal water path and flow-meter positioning that increase temperature stability.

Integrated Scales - ABR only

Precision scales integrated in the drip tray provide an improved level of consistency.

Hot Water Economizer

Enables you to fine-tune the tap water temperature for tea.

Personalized Colors - Special Order

Customizable colors based on the RAL color system, on request.

Digital Display

Intuitive programming makes it easy to adjust machine parameters.

Eco Mode

Can be programmed to enter stand-by mode, improving energy efficiency.

High Legs - Special Order

Makes it easier to access beneath the machine.

Dimmable Barista Lights

3-stage customizable intensity led lights for Eco, On and Brewing modes.

Cup Warmer - Special Order

Maintain espresso and cappuccino cups evenly heated at a proper temperature.

Water Sensor

Measures the conductivity and hardness of wa- ter as it enters the machine.

USB

Making it possible to update the firmware.

The KB90 is the ultimate evolution of the Lincency and to reduce the wrist strain of the ea PB form. Designed specifically to increase user. Efficiency can also be increased thanks speed of service in the highest volume cafes to Steam Flush: after each extraction, a burst while

easier for the barista thanks to an imof steam from the grouphead is followed by a proved workflow. La Marzocco has redesigned flush of hot water, keeping the machine clean the portafilter system to improve workflow effi- even in the busiest rush hours. This innovative

function minimizes off flavored buildup, and increases the time between having to clean the group. The KB90 allows for a new level of ex- pression in machine design, the panels have been engineered so that virtually infinite customization combinations can be created.

Personalized Colors - Special Order

Customizable colors based on the RAL color system, on request.

Independent Boilers

Separate boilers for each group head allow barista to optimize temperature for individual coffees.

Cup Warmer - Special Order

Maintain espresso and cappuccino cups evenly heated at a proper temperature.

Eco Mode

Can be programmed to enter stand-by mode, improving energy efficiency.

1/2 Turn Steam Valve

Steam valve fully opens in 1/2 turn, requiring less movement for the barista to steam milk.

Dual PID (coffee and steam)

Allows you to electronically control coffee and steam boiler temperature.

Integrated Scales - ABR only

Precision scales integrated in the drip tray provide an improved level of consistency.

Straight In Portafilter

Simplifies the motions to engage the portafilter and reduces the strain by 12 times.

Digital Display

Intuitive programming makes it easy to adjust machine parameters.

Barista Lights

Led lighting allows you to focus on your extraction and the cup.

Easy Rebuild Steam Valve

Engineered so the valve can be serviced directly from the front of the machine without needed to be removed.

Pro Touch Steam Wands

High performing steam wands that are cool to the touch.

High Legs - Special Order

Makes it easier to access beneath the machine.

Steam Flush

Keeps the group clean with an automatic burst of steam and a flush of hot water between extractions.

Pro App Compatible

Electronic board that allows connectivity with the La Marzocco Pro App.

Water Sensor

Measures the conductivity and hardness of wa- ter as it enters the machine.

Hot Water Economizer

Enables you to fine-tune the tap water temperature for tea.

USB

Making it possible to update the firmware.

leva s

reimagining what a lever-actuated
espresso machine can be.

AV2 GROUP

LAM00310

AV3 GROUP

LAM-LEVA3 S

Available Configurations: LEVA

Leva rethinks the form of a lever espresso machine. No longer must safety be compromised in order for a café to use lever technology. The lever group gives line of sight to the captivating breakthrough mechanics. Leva features groundbreaking design, and technology

Available Number of Groups: 2 | 3

in a mechanical, reliable, and user friendly machine. The innovative design reduces the force required to operate the machine by almost 50% compared to a traditional lever machine, while also introducing a safety clutch system. Leva machine makes it possible to

adjust both the pre-infusion pressure and the maximum extraction pressure delivered by the lever piston, allowing to personalize coffee brewing and attain consistent shots. With over 2500 hours of testing, Leva sets a new standard for the reliability of a mechanical system.

Dual PID (coffee and steam)

Allows you to electronically control coffee and steam boiler temperature.

Pro Touch Steam Wands

High performing steam wands that are cool to the touch.

Adjustable Drip Tray

Allows you to use the machine with tall, to-go cups.

strada x

designed for
and by baristas.

Over the course of two years La Marzocco worked with thirty of the world's finest coffee professionals to design a machine. This group was known as the "Street Team"; the Strada, Italian for street, was named in their honor. A lower profile invites customer engagement in a café

setting, while also providing the barista an open, expansive work area. The Strada platform has been designed to encourage creativity and customization so that each machine can be unique. The Strada is available in 5 different configurations to meet the specific

needs of baristas and cafes around the world. All configurations are equipped with the finest La Marzocco technology and provide users great ergonomics, barista-friendly design and electronics in a machine that enables to showcase the very best of each coffee.

Straight-in Portafilters

Designed to simplify the motions required to engage the portafilter and reduce strain by 12x on the barista for even greater performance and everyday usability.

Independent Saturated Boilers

Separate saturated boilers for each group head allow baristas to optimize temperature for individual coffees, ensuring thermal stability.

Dual PID (coffee and steam)

Allows you to precisely control each coffee boiler as well as the steam boiler independently.

Insulated Boilers

Reduce energy consumption while contributing to temperature stability.

Steam Flush

Keeps the groups clean with an automatic burst of steam and a flush of hot water between extractions.

USB

Making it possible to easily update the machine's firmware.

Smart Saturation

The Smart Saturation feature introduced in the Strada X monitors the flow rate of the water to take guesswork out of preinfusion and ensure ultimate consistency.

Proportional Steam Valve

Lever-style activation for proportional solenoid steam valve.

Paddle-Based Programming

A redesigned paddle ensures that the Strada X automatically tunes your pressure inputs into a profile that won't damage the puck and result in channeling.

Hot Water Economizer

Enables you to fine-tune the tap water temperature for tea.

Mass-Based Profiling

Integrated scales allow for a new standard in precision and repeatability using beverage mass to control the pressure curve.

Pro Touch Steam Wand

High performing steam wands that are cool to the touch.

Intuitive Interface

The Strada X was designed to use the same methods of control that baristas are used to, allowing you to focus on the coffee instead of the technology.

Pro App Compatible

Electronic board that allows connectivity with the La Marzocco Pro App, allowing for profiles and settings to be easily managed.

Cup Warmer - Special Order

Maintain espresso and cappuccino cups evenly heated at a proper temperature.

Eco Mode

Can be programmed to enter stand-by mode, improving energy efficiency.

Digital Display

Intuitive programming makes it easy to adjust machine parameters and to monitor extraction times.

Personalized Colors - Special Order

Customizable colors based on the RAL color system, on request.

gs3

professional grade espresso equipment, built for the home.

Available Configurations: MP | AV

Available Number of Groups: 1

The La Marzocco engineering group set out to take the most advanced La Marzocco technology and translate it for a home espresso machine. The GS3 features the thermal stability system used in the La Marzocco Strada, including a preheating system, digital PID controller, saturated groups, a dual-boiler system, and digital display. These features make for a luxury espresso preparation platform: everything you could hope for as someone who wants to enjoy the best-quality espresso at home. All that's left for you to do is to grind, dose, and tamp. Thanks to the new electronic board, the GS3 can now be connected to the internet and controlled through the new La Marzocco Home App, available on App- Store and GooglePlay.

Conical Paddle

This new conical valve system assures progressive control of water flow and pressure via an internal orifice, before applying full pressure. The paddle valve controls pre-infusion while the volumetric pump is working at full pressure, allowing the barista to perform pre-infusion on one group while the other is extracting coffee.

This dynamic system allows the barista to reduce channeling for a more balanced extraction.

swift mini

easy, clean and with
multi-purpose grinding.

SWIFT MINI BLACK

LAM03200

The Swift Mini grinder simplifies and streamlines preparing espresso. Making it possible to grind, dose and tamp a double espresso on demand with no waste and no mess. The Swift Mini is compatible with all La Marzocco Home machines. Moreover, the Swift Mini can function as a standard on demand grinder. In this way it is possible to grind for single espresso, or for filter brewing method.

Specifications

Burr Type	Conical

Grind Adjustment	Stepped
Burr Diameter	32mm
Grinding Speed (rpm)	680
Programmable Dose	Yes
Height (cm/in)	47 / 18
Width (cm/in)	17 / 6,5
Depth (cm/in)	32 / 12,5
Weight (kg/lbs)	13,5 / 30
Voltage	110V Single Phase
	220V Single Phase
Wattage	450

swift

top quality and absolute consistency.
Grinds, doses and tamps at the touch of a button.

SWIFT SD
LAM03000

The Swift grinder is the only grinder that grinds and tamps on demand, with no waste and no mess, to an accurate volumetric dose. Swift's clever engineering and design guarantee level and consistent coffee beds, time after time. Flat ceramic burrs ensure minimal heat buildup during the grinding process. Swift is ideal for high volume locations where consistency is key. Swift technology maintains quality in the cup, shot after shot, no matter who is using it.

Precision Grinding at Home.

A home espresso grinder built on 90+ years of espresso tradition.

The Pico blends simplicity, reliability, and exceptional shot-quality with every grind. Designed with impeccable attention detail, the Pico comes equipped with a noise-reducing brushless induction motor, precise dose selection, programmability, and unique features like the adjustable magnetic portafilter fork and auto-close hopper. Compact and user-friendly, the Pico seamlessly integrates into any morning routine—the perfect companion for the home barista.

Quiet, Precision Grinding

Pico's high-quality brushless induction motor combined with innovative sound-dampening design keeps the morning routine quiet while delivering remarkable grind consistency.

Programmable Portafilter Actuation

Designed for ease of use, Pico's three-button programmable dose selection and on-demand actuation make dosing a breeze. Coupled with an adjustable magnetic portafilter fork, resting the portafilter securely while grinding has never been easier.

Easy Grind Adjustment

Effortless grind customization with Pico's stepped adjustment collar. A user-friendly design, complete with a distinctive "stepped" feel, lets you effortlessly switch between grind sizes on the fly.

Fast And Accurate

The Pico grinds a fluffy 18g dose in under 10 seconds, all thanks to its precision-engineered burr set. Accuracy and consistency shot after shot.

Designed by la marzocco

True to the craftsmanship of La Marzocco, Pico's solid build mirrors the renowned design language of over 90 years of iconic espresso machines. The Pico is the perfect grinder to elevate the home espresso experience.

Burr Type	Conical
Hopper Capacity (kg/lbs)	0,3 / 0,66
Grind Adjustment	Stepped
Burr Diameter	39 mm

vulcano

Fresh coffee explosion.
Available in automatic, on demand
and Swift operation.

VULCANO ON DEMAND

LAM03020

Inspired by the original model designed by Giuseppe Bambi that won a design award at the Milan Expo in 1968, the Vulcano grinder brings together La Marzocco's distinct retro style with Mazzer's unparalleled technology. The Vulcano Swift, moreover, like the Swift, grinds, doses and tamps on demand, thereby ensuring consistency and quality.

wally milk

The pour is yours.

Wally Milk, the automatic milk steamer that can be connected to all professional La Marzocco and Modbar machines, as well as most other commercial espresso machines. Wally Milk makes it easy for anyone to steam milk with no waste and minimal training, allowing

the barista to focus on what really matters, which is the customer. Wally Milk can be programmed with up to 20 recipes, making it possible to easily work with dairy and non-dairy milks and a multitude of temperatures and levels of milk aeration. It comes with three

milk pitchers (250ml/8oz, 400ml/14oz and 700ml/24oz) and, thanks to its infrared sensors automatically recognizes which pitcher is being used. It is also possible to use any matte finish pitcher, between 250ml/8oz and 700ml/24oz.

Digital Display

Intuitive programming makes it easy to adjust machine parameters.

Espresso Machine Compatibility

Can be attached directly to the steam tip or steam boiler of most commercial espresso machines.

WALLY MILK STEAMER
LAM04000

Pro Touch Steam Wands

High performing steam wands that are cool to the touch.

24V Electronics

Provide the machine with improved reliability and machine diagnostics.

Vortex Steam Tips

Exclusive steam tip that helps steaming the milk.

Proximity Sensor

Measures the jug's size and milk level.

3 Pitchers Included

Wally Milk is equipped with 3 pitchers to minimize milk waste.

Multiple Recipes

Allows to record up to 20 recipes, selectable with a push of a button.

Tilting Platform

The tray tilts as Wally Milk is steaming, replicating the movement of the barista.

Temperature Sensor

An infrared sensor monitors the steaming temperature to assure maximum consistency.

USB

Making it possible to update the firmware.

Easy Access for Technicians

Engineered for easy service and minimal downtimes.

Specifications

Height (cm/in)	49 / 19
Width (cm/in)	22,5 / 9
Depth (cm/in)	32,5 / 13
Weight (kg/lbs)	10 / 22
Voltage	110V - 220V
Wattage	45 W

la marzocco home x acaia connected scale

Dual Dose Setting

Customise your preferred espresso doses by setting up to two doses, or brew using continuous flow mode—all through the La Marzocco Home app.

Predictive Drip Algorithm

No more guesswork. The scale's advanced algorithm predicts the perfect moment to stop the brewing process, ensuring you hit your desired weight every single time.

Standard Acaia Lunar Features

Enjoy all the standard features that have made Acaia Lunar scales a favourite among home espresso and baristas in cafes. Precision, durability, and a sleek design at your fingertips.

Walk Away with Confidence

The scale's precision allows you the freedom to step away and multitask. Whether you're preparing breakfast or simply enjoying a moment of calm, rest assured your espresso will be brewed to perfection.

Exclusive to the Linea Mini

Designed to work flawlessly with the Linea Mini, this scale ensures that every espresso shot is a masterpiece.

Freedom to Multitask

Incredible accuracy and predictive capabilities, the Connected Scale allows you to balance your morning routine, knowing your espresso will be ready when you are.

barista essential

Here you will find a wide selection of high-quality equipment and accessories, specifically designed for industry professionals and home baristas. We have everything you need to make your barista experience complete and satisfying. Our range of products is carefully curated to ensure that each item meets the highest standards of quality and functionality. In addition to quality, we also consider ergonomics and design, to ensure that every product is comfortable to use and seamlessly integrates with your coffee station.

12OZ MILK PITCHER

For your fantastic milk-based drink, whether it's going to be a macchiato, cappuccino or flat white – enjoy the touch and design of this La Marzocco branded milk pitcher in stainless steel (12oz/350ml).

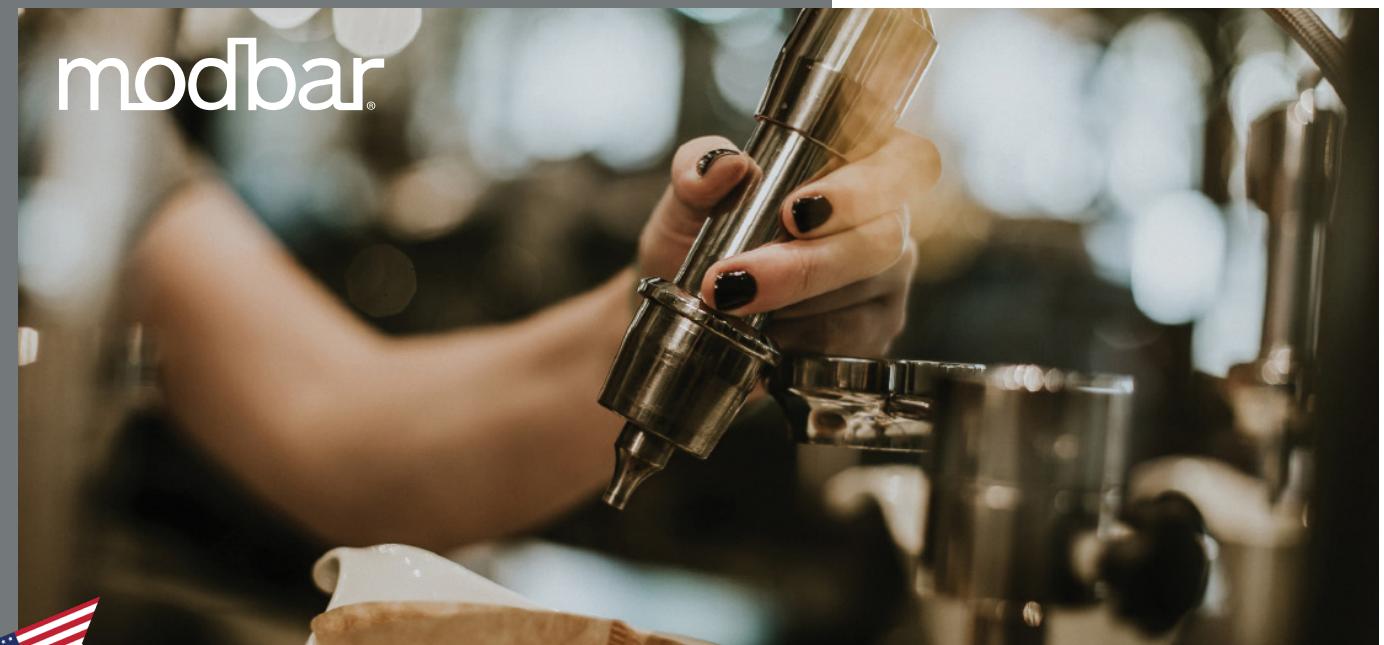

20OZ MILK PITCHER

Hey let's get things frothy with this La Marzocco milk pitcher (20oz/600ml). Creamy cappuccinos and silky milk right at your finger tips.

12OZ MILK PITCHER

For your fantastic milk-based drink, whether it's going to be a macchiato, cappuccino or flat white – enjoy the touch and design of this La Marzocco branded milk pitcher in stainless steel (12oz/350ml).

HISTORY OF MODBAR

- Modbar starts with two bandmates in a basement. In the early 2000s, Corey Waldron, guitarist by night, was working as a barista and roaster when he started thinking about the disconnection between drink production and drink consumption. As a barista, he understood the craft going into each drink, but didn't feel it always translated to the customer standing on the other side of a big countertop machine.
- Corey's initial thinking, combined with bassist Aric Forbing's experience as a machine pattern engineer, soon turned into a brand new way to design an espresso machine, with the inner workings tucked neatly under the counter.

PART OF THE LA MARZOCCO FAMILY

- First introduced to the under-counter concept in 2007 at the SCAA Expo in Long Beach, La Marzocco was an early investor in Modbar. In 2016, La Marzocco took a more active role in supporting Modbar, and as of March 2017.
- Modbar and La Marzocco now work closely together in all aspects of the business, from sales and service to marketing and manufacturing.

MODBAR COMMITMENT

- Modbar is the original under-counter brewing manufacturer, creating beautiful machines that open up the bar and increase hospitality. The core of our DNA – our brand promise – is to be at the heart of a beautiful cafe experience.
- To live up to that promise, we:
 - Offer innovative design solutions for workflow and efficiency.
 - Help customers realize their vision for cafe design.
 - Guide customers in designing a cafe experience.
 - Produce machines that work consistently and reliably.
 - Provide exceptional customer support and a reliability guarantee.

ESPRESSO SYSTEM AV

The most consistent and stable under-counter espresso equipment available. Crafted and sold in full partnership with La Marzocco.

HISTORY OF RANCILIO

- Almost one hundred years of business history.
- Rancilio Group, founded by Roberto Rancilio and Kastor Egloff, unites the stories of four brands.
- Stories of men, intuitions, entrepreneurial dreams, technological innovations, designs and patents that, over the years, have created the myth of an international company that produces professional coffee machines.

RANCILIO COMMITMENT

- Rancilio committed to design, manufacture and distribute professional coffee machines with a defined attitude towards technological innovation and coffee culture.
- 1. **Rancilio was born out of the Officine Meccaniche Rancilio and to this day, after almost one hundred years, their coffee machines continue to push innovation forward.**
- 2. **Rancilio build each coffee machine with passion and great care.**
- 3. **Rancilio distribute in more than 115 countries in the world, offering solutions for any type of business.**

SUSTAINABILITY

- For Rancilio Group, sustainability is a responsibility which involves each and every part of our business worldwide.
- Rancilio design coffee machines according to process, safety, quality and environmental international standards.
- After testing the coffee machines, more than 1000kg of coffee grounds per year are used as natural fertiliser in the Company Garden.

CLASSE 5 USB

Premium essentials functionalities and performance at an affordable price, like no other single boiler espresso machine on the market.

Classe 5 is focused on what matters most: quality in the cup, ease-of-use and reliability. Its features are combined in a contemporary industrial design.

HISTORY OF MAZZER : MORE THAN 70 YEARS OF EXPERIENCE

- Mazzer is a family company based in the countryside near Venice. Founded as a precision mechanic workshop between the two World Wars, the company wouldn't be called "Mazzer" until 1948, when Luigi Mazzer began producing professional grade coffee grinders and burrs.
- Born in 1912, Luigi stayed at the helm of the company until his son, Giovanni, took over in 1988. With a degree in electrical engineering, he was able to boost the export and expand research and development.
- Today, Mazzer export over 80% of total volume and grinders can be found in 100 countries across five continents.

100% MADE IN ITALY, 100% MADE IN VENICE

- Mazzer does not only assemble, but also internally designs and produces all components connected to the grinding process in order to guarantee the highest level of quality and durability of grinders and burrs.
- Mazzer has the production capacity of a highly-specialized team of technicians, as well as a workshop with the latest machinery and technologies, allowing to produce very complex components that are then transformed into simple tools for the barista. 12% of the annual turnover is reinvested in R&D.

WHY MAZZER?

- Mazzer specializes only in coffee grinders and burrs. Across decades, they have optimized their resources, refined know-how and focused capabilities on crafting the perfect grinding machine. Their mission is to produce the best equipment for the coffee sector, professional, functional and reliable, structuring a range that meets and anticipates the needs of the market.
- They also improve through continuous product innovation that makes it at the forefront in terms of performance and quality, producing efficiently, respecting the environment, people and the community in which they operate.

Burrs for Three Phase	Conical Burrs 67mm (2 ½ inches) (ref. 192C)
Grinding Burrs Speed	420 rpm (50Hz) - 500 rpm (60Hz)
Body	Aluminum Die Casting
Hopper Capacity	1.3kg (2.9lbs)
Ground Coffee Container Capacity	280g (0.6lbs)
Dose Adjustment	5.5 - 8g (0.19 - 0.28oz)
Net Weight	20kg (44lbs)
Equipment Features	Aluminum Static Tamper, Tag Holder
Optional Features	Oversize Dose (8 - 10.5g 0.28 - 0.36 oz) Spring Coffee Pressing Device with Long Fork Easy Tamper for Doser

ELECTRONIC

Technical Features:

Power	450 Watt
Grinding Adjustment	Stepless Micrometrical
Burrs	Conical Burrs 63mm - (2 ½ inches) (ref. 191C)
Grinding Burrs Speed	420 rpm (50Hz) - 500 rpm (60Hz)
Average Grinding Speed	1s/ > 3g @50Hz - 1s/ > 3.6g @60Hz
Body	Aluminum Die Casting
Hopper Capacity	1.3kg (2.9lbs)
Net Weight	20kg (44lbs)
Equipment Features:	IoT, Tag Holder

MAJOR VP

Fast But Gentle On The Coffee Beans. The Mazzer Major VP is the fastest grinder of the V line. Its innovative technologies allow for higher grinding speeds with lower RPM (revolutions per minute – 900 rmp @50Hz).

Thanks to the high torque asynchronous motor the Major VP is designed to grind high volumes of coffee without overheating. The lower-revolution motor results in less noise and a longer lifespan for the grinder and its components.

ELECTRONIC - BLACK
MAZ00260

ELECTRONIC - WHITE
MAZ00261

A MORE POWERFUL MOTOR, LOWER RPMs REDUCED NOISE

Thanks to the high torque asynchronous motor (900 rpm @50HZ) the Major VP is designed to grind high volumes of coffee without overheating to preserve taste and aromatic compounds in the cup. The lower-revolution motor results in less noise and a longer lifespan for the grinder and its components. Tailor made double fan cooling system.

SPECIAL HIGH CARBON STELL BURRS

Tailor-made 83mm flat burrs re-engineered with high performing materials that make the grinder faster while giving it a longer lifespan. The special high carbon steel selected reduces thermal strain, which result in sharper geometries to get a uniform grind size distribution.

CONSISTENT RESULTS

The Major VP grinds coffee uniformly and doses grinds consistently to give drinkers a replicable taste experience from shot to shot.

DURABLE AND ECO FRIENDLY

More than 94% of the grinder weight comes from sustainable premium materials making it, not only durable but also easy to recycle and eco-friendly.

Technical Features:

Power	650 Watt
Grinding Adjustment	Stepless Micrometrical
Burrs	Flat Burrs 83mm - 3 1/4 inches) (ref. 151H)
Grinding Burrs Speed	900 rpm (50Hz) - 1080 rpm (60Hz)
Body	Aluminum Die Casting
Hopper Capacity	1.6kg (3.5lbs)
Net Weight	20.5kg (45.2lbs)
Equipment Features	GFC -IoT
Optional Features	Hang-support for Tamping, Manual Tamperr

MINI

Your Compact Sized Commercial Coffee Grinder. Mazzer MINI is the gold-standard compact sized commercial coffee grinder. Small dimensions, heavy-duty die-cast aluminum body, stepless control and ease of use make it an ideal choice suited for small cafes, low-volume shops and restaurants who want a professional edge.

MAZ00401

UNIFORM coffee grounds and **consistent** dosing.

-52%

RETENTION reduced by **52%**.

HIGH PERFORMANCE for high-volume coffee shops! Average grinding speed 1s / 5g

EASY to **CLEAN**. Access the grinding chamber with no loss of grind settings.

Tailor-built **COOLING SYSTEM** with double fan. LOW RPM: 420 (50Hz), 500 (60Hz)

User-friendly **MEMORY TRACK** system to index grind settings.

ADJUSTABLE PORTAFILTER HOLDER

GFC

GFC - Grind Flow Control

Get uniform coffee grounds in your portafilter while keeping grounds from getting on the counter. Removable aluminum outlet inser equipped with 3 interchangeable wire dampers. Choose the best wire damper for you according to coffee origin, roast profile, weather conditions or barista preferences.

Technical Features:

Power	800 Watt
Grinding Adjustment	Stepless Micrometrical
Burrs	Conical Burrs 71mm (ref. 186c)
Grinding Burrs Speed	420rpm (50Hz) - 500rpm (60Hz)
Average Grinding Speed	1s / 5g
Body	Aluminum Die Casting
Hopper Capacity	1.6kg (3.5lbs)
Net Weight	28kg
Equipment Features	GFC Kit, IoT Tamping Support Base, Manual Tamper

ZM PLUS

The ZM Plus boasts all the features of the digital ZM grinder, plus a special unit that facilitates both the espresso and filter coffee grinding processes, thereby making it a powerful, flexible tool for speciality coffee.

Its multifunctional features include universal portafilter holder for espresso, quick-connect canister for filter coffee and bag holder.

K151L HYBRID BURR – BLACK

MAZ00520

K151L HYBRID BURR – WHITE

MAZ00521

SINGLE DOSING

Minimal retention allows for single dosing (<0.5g after first use) - barista can easily switch between multiple origins without contaminations of coffees.

EASY TO CLEAN

The flipping display allows easy access to the grinding chamber for cleaning and burr replacement.

ON-DEMAND DOSING CAPABILITY

On-demand dosing capability - adjustable grinding times, 4 programmable time dose buttons.

KEEPS COFFEE SAFE

Double fan cooling system with electronic control keeps coffee grounds safe from temperature exposure preserving maximum aroma. **Lower RPM** (revolutions per minute - 900rpm @50Hz - 1080rpm @60Hz) allow to be gentle with the coffee beans.

SPECIAL STEEL BURRS - K SERIES

Special steel 83mm flat burrs designed and manufactured by Mazzer to grant high precision and a longer lifespan. 4 available options: **k151I** (hybrid) for espresso & filter; **k151B** for espresso; **k151F** for filter; **k151G** for filter (lower quantity of fines).

Technical Features:

Power	800 Watt
Grinding Adjustment	Digital Micrometric
Burrs	Special steel flat burrs 83mm (k151F or k151G for filter or k151B for espresso or k151I hybrid)
Grinding Burrs Speed	900 rpm (50Hz) - 1080 rpm (60Hz)
Body	Aluminum Die Casting
Hopper Capacity	0.32kg (0.7lbs)
Net Weight	35kg (77lbs)
Equipment Features	1 bag holder, 2 canisters, GFC
Optional Features:	1.3 kg (2.9 lbs) hopper, inox canister

HISTORY OF EUREKA

- EUREKA is a leading company in designing and manufacturing modern and elegant coffee grinders since 1920. Founded in Florence by Aurelio Conti, the company started its activity as manufacturer of grinders for Espresso and quickly became a symbol of excellence.
- Nowadays, thanks to its international and dynamic attitude, Eureka aims to become the most innovative company in the coffee grinder industry: the “State of the Art” in grinding technique for any type of coffee preparation.

EUREKA PHILOSOPHY

- **Customer Care** - Some years ago Eureka introduced a special Customer Care service program to assist our customers through order fulfilment, logistics, any pre- or post-sales need.
- **Original spare parts** - Ensuring the product quality over time; Simplifying the customer procurement process.
- **Delivery time** – Speed & Reliability
- **Partnership & Flexibility** - “Domi Esse” principle: the main goal is to “feel at home” in every market in which Eureka operates. Partnership & Flexibility are our key words.

WHY EUREKA?

- Eureka Mission is to provide an impeccable service, being always careful to the customer needs, through competitive products which combine design, technology and innovation.
- All this without renouncing to a 100% “Made in Florence” product, entirely hand-assembled in their Florentine factory: where industrial organization is melded to artisanal knowledge with wise mastery.

ATOM 60

MACAP

158

VITAMIX

160

Mix & Blender

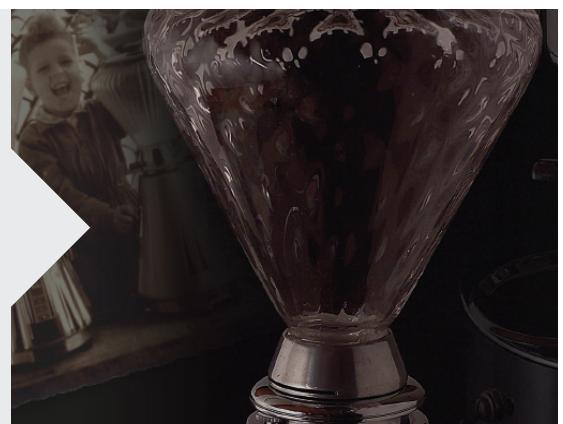

HISTORY OF MACAP

- Macap, acronym for Macina Caffè Petziol, took this name at the end of the '80s. The company, today led by its third generation, was born in 1930, when the founder Ottorino Petziol opened his mechanical workshop in the Venetian hinterland.
- The business focused on the production of coffee grinders and equipment for bars, to complement with a small foundry (still used for small batches).

WHY MACAP?

- Today, MACAP working with more than 70 countries overseas, to offer a selection of products starting from traditional coffee grinders, instant grinders (the first Italian company to have such a large range of models), up to dynamometric tampers (patented), very significant for Macap's innovation capacity.

HISTORY OF VITAMIX

- Family-owned and operated since 1921, Vitamix is an industry leader in high-performance blending technology, providing the highest-quality blending equipment to consumers and the foodservice industry in more than 100 countries throughout the world.

VITAMIX MISSION & VISION

- **Mission** - We create relationships for life by developing and producing the world's best performing and most reliable blending equipment.
- **Vision** - Improving the vitality of people's lives and liberating the world from conventional food and beverage preparation boundaries.

WHY VITAMIX?

- Every Vitamix product is built with a strategic selection of the industry's most durable materials.
- Vitamix products are trusted by more professional chefs and major chain restaurants than any other brand.
- The Vitamix warranty on new household machines and on new commercial machines goes well beyond the industry standard to ensure that customers are delighted with their purchases for many years to come.

**2 SPEED DRINK MACHINE
WITH 1.4L CONTAINER**
VIT00040

Durable and Efficient Blending

The Drink Machine Two-Speed is the reliable blender when powerful, functional, blending is needed. With manually- controlled two-speed capability, the Drink Machine Two-Speed will flawlessly create delicious frozen coffee drinks, fruit smoothies, granitas, shakes and more.

Smart Product Design

- Blades create enough torque to crush 64 oz. of cubed ice in seconds.
- Powerful, thermally-protected motor handles dense ingredients without overheating.
- Clear, durable 64 oz. container pulls ingredients into the blades for efficiency and better speed of service.

Motor:	≈2 peak output horsepower motor
Electrical:	120 V, 50/60 Hz, 11.5 A
Pack:	Includes Drink Machine Two-Speed with 64 oz. high-impact, clear container, complete with blade assembly and lid, and grey base.
Net Weight:	12.2 lbs. (13.8 lbs. with box)
Dimensions:	20.3 x 8.0 x 9.0 in. (H x W x D)

**VITA PREP 3HP WITH
WET BLADE ASSEMBLY**
VIT00041

Unmatched Performance in Commercial Kitchens

Professional chefs and culinary schools around the world trust the Vita-Prep 3 for its exceptional power, versatility, and performance. From chopping delicate ingredients to blending tough purées, the Vita-Prep 3 is the only tool that's durable and capable of perfectly chopping, grinding, and blending it all.

Smart Product Design

- ≈3 peak output HP motor delivers unmatched performance when puréeing, grinding, chopping and more.
- Variable speed and accelerator tool allows for control and easy processing of dense ingredients.
- Advanced cooling fan for optimum reliability during peak hours of operation
- Patented, high-impact container is clear for seeing ingredients during operation.

Motor:	≈3 peak output horsepower motor
Electrical:	220 - 240 V, 50 Hz, 1100 - 1200 W
Pack:	Includes Vita-Prep 3 with 2,0 L high-impact, clear container complete with blade assembly and lid, accelerator tool, and black base.
Net Weight:	5,5 kg (6,3 kg with box)
Dimensions:	51,4 x 20,3 x 22,9 cm (H x W x D)

**BARBOSS ADVANCE WITH
9.0 ADVANCE CONTAINER,
RED BASE**
VIT00042

The Ultimate Blender for Every Beverage Program

Whether preparing blended drinks, simple syrups or purées for cocktail bases, the BarBoss Advance is an essential tool for adding or expanding a beverage program.

Smart Product Design

- 6 optimized programs and automatic shut-off means you can turn it on, walk away, and achieve consistent results.
- Pulse control quickly refreshes drinks for efficiency.
- Advance® container creates faster, smoother pouring and has a longer blade life resulting in time and cost savings along with improved customer experience.
- Advanced motor is designed to resist overheating when blending extra-thick ingredients resulting in cooler operation and enhanced reliability during peak hours of operation.

Motor:	≈2 peak output horsepower motor
Electrical:	220 - 240 V, 50/60 Hz, 1000 - 1200 W
Pack:	Includes BarBoss Advance with 0,9 L high-impact, clear/stackable Advance® container, complete with Advance blade assembly and lid, and red base.
Net Weight:	5,5 kg (6,3 kg with box)
Dimensions:	44,9 x 20,3 x 22,9 cm (H x W x D)

**THE QUIET ONE BLENDER
(ON-COUNTER)**
VIT00001

The Quietest Commercial Blender Available

The ultimate blender with unparalleled sound reduction, exceptional beverage blends, and improved speed of service.

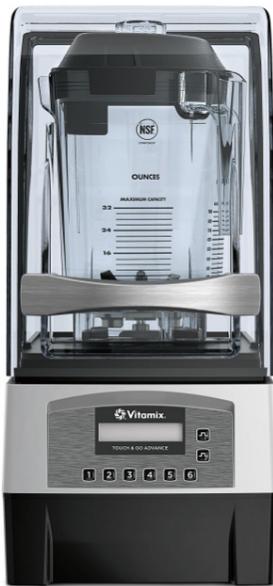

Smart Product Design

- Up to 4 times quieter than the competition due to the advance vibration dampening technology; resulting in quality drinks in a more enjoyable atmosphere.
- Magnetically secured floating sound enclosure is dramatically easier to clean and disassemble with no screws to damage the enclosure.
- 6 program buttons with 34 optimized programs for easier, consistent blending
- Advance® container creates faster, smoother pouring and has a longer blade life resulting in time and cost savings along with improved customer experience.
- Air management and powerful ≈3 peak output HP motor reduces noise, improves reliability, and reduces down time.

Motor:	≈3 peak output horsepower motor
Electrical:	120 V, 50/60 Hz, 15.0 A
Pack:	Includes The Quiet One® with 48 oz. high-impact, clear/stackable Advance® container complete with Advance blade assembly and lid, and removable compact enclosure.
Net Weight:	20.0 lbs, (28.0 lbs. with box)
Dimensions:	18.0 x 8.5 x 10.7 in. (H x W x D) Height with lid open: 24.5 in. 16.5 x 8.5 x 10.7 in. (H x W x D) Height with lid open: 23.0 in. Depth below counter: 1.2 in.

Noise Reduction for Smaller Volume Shops

The Touch & Go Advance offers a powerful motor, convenient pre-set controls, and noise reduction for smaller-volume shops.

**T&G ADVANCE WITH
0.9L ADVANCE CONTAINER**
VIT00022

Smart Product Design

- 2.3 HP motor blends frozen drinks with ease
- Twist-and-lock sound enclosure features a no-tools-required design for easy removal and cleaning
- 6 pre-set buttons blend the most commonly made drinks
- 20 recipe programs provide consistent results quickly and easily
- ,9-Litre Advance container creates smooth, pourable blends

Motor: ≈2,3 peak output horsepower motor

Electrical: 220-240 V, 50/60 Hz, 1100-1300 W

Pack: Includes Touch & Go Advance with 0,9-Litre high-impact, clear/stackable Advance container, complete with Advance blade assembly and lid, and removable compact cover.

HISTORY OF 3M

- More than a century ago, 3M started as a small-scale mining venture in Northern Minnesota, then named Minnesota Mining and Manufacturing Company.
- Now a global powerhouse, their products improve the daily lives of people around the world.

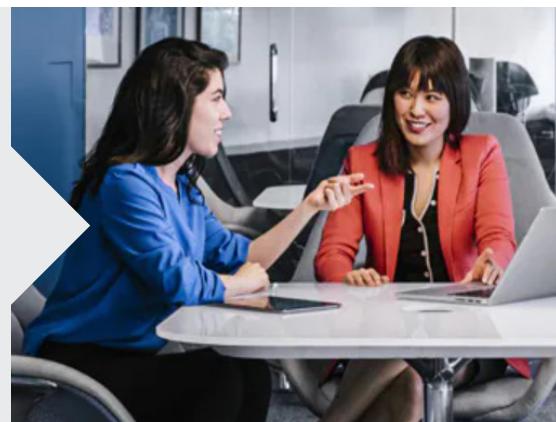

AWARD & RECOGNITION

- 3M named One of the 2022 World's Most Ethical Companies. The Ethisphere Institute recognized 3M for ethics and integrity in business conduct and compliance for the ninth straight year.

ETHNICS & COMPLIANCE

- At 3M, customers are at the heart of everything they do. 3M strong ethical culture to do business the right way give them the confidence to grow business anywhere in the world. 3M customers know they are a company they can trust. At 3M, they are committed to do the right thing, every day.
- The Ethics & Compliance team is an independent function reporting directly to the Audit Committee of the 3M Board of Directors. This is done to ensure autonomy in reporting so that the compliance team can act independently should an issue arise at 3M.

AQUAPURE PRE-FILTER HOUSING WITH STAINLESS STEEL HOLDER & PRE-FILTER CARTRIDGE

AQU00001

AP005T REPLACEMENT CARTRIDGE MICRON RATING

AQU00006

- 3/4" BST
- 6gpm (23 lpm)
- Cold Water
- Clear Sump

Made from FDA* CFR-21 Compliant Materials

**Food and Drug Administration of USA*

Features:

- Built-in pressure relief button.
- Choice of corrosion resistant "see-through" or "opaque" filter housing.
- Choice of filter cartridge:
 - Premium performance AP110 graded density dirt/rust cartridge.
 - Premium performance, dual action AP117 activated carbon dirt/rust/taste/odor cartridge.
- High flow housing design

Benefits:

- Purges pressure for convenient cartridge charges.
- See-through housing for convenient viewing of cartridge condition or U.V. resistant opaque housing for outdoor use.
- Removes microscopic impurities such as dirt, rust, sand, silt for sparkling clear water.
- Extends life of appliances, faucets and fixtures.
- Eliminates staining on fixtures and clothing caused by rust in water.
- Effective filtration of unwanted sediment, tastes and odors such as chlorine for sparkling clear, great tasting water and ice cubes.
- For point of entry or demanding point of use applications.

BREW 110-MS

AQUAPURE COFFEE FILTER

PURE BREW 110-MS

AQU00002

AQUAPURE BREW 110-MS

REPLACEMENT CARTRIDGE

AQU00003

Application

- Coffee and tea brewers.

Product Benefits

- Consistent great-tasting brewed coffee and tea from water with reduced sediment and chlorine taste and odor.
- Certified by NSF to Standard 53 for cyst reduction (BREW110-MS system).
- NSF Standard 42 and/or FDA CFR-21 compliance provides assurance of safety. Equipment protection from reduced sediment particles that can clog the spray head.
- Reduced scale formation by the controlled release of proprietary scale-inhibitors.
- Patented *valve-in-head design simultaneously shuts off and vents water with $\frac{1}{4}$ turn, allowing for simple and trouble-free cartridge change-outs.
- SQC™ – Sanitary Quick Change – encapsulated cartridge design allows for fast and easy change-outs with a $\frac{1}{4}$ turn while minimizing the possibility of leakage and contamination.
- 3/8" FNPT horizontal inlet and outlet ports allow direct or easily adaptable connections to existing plumbing lines.
- Optional pressure gauge allows monitoring of downstream water pressure.
- Exhausted cartridges may be incinerated for environmentally conscious disposal.

AP 110 PRE-FILTER CARTRIDGE

AP110 PRE-FILTER CARTRIDGE

AQU00004

AP110-2 PRE-FILTER CARTRIDGE

AQU00005

Application

- Pre-Filtration
- Particulate/Rust

Product Benefits

- Patent pending technology provides fine sediment filtration down to 5 micron**.
- Grooved cartridge increases surface area for longer cartridge life, by 132% over non-grooved and 47% over the previous design.
- Rigid construction helps to eliminate sediment “unloading” due to variances in water pressure.

* as compared to original AP110 design

** depends on model selected

HISTORY OF PARAGON

- Paragon Water Systems, Inc., is an ODM/OEM provider of certified water filtration solutions.
- Paragon was established in 1988 in Clearwater, Florida and now has manufacturing facilities in the U.S. and China. Paragon Water is an industry leader in the design and production of water filtration and purification products.
- They manufacture a complete line of NSF-certified water filtration solutions, with many of our products also certified to international standards of organizations like the Ministry of Health of the People's Republic of China.

PARAGON MISSION

- To discover and develop new technologies to help improve drinking water while maintaining exceptional quality, service, and integrity.

WHY PARAGON?

- Paragon take great pride in their craftsmanship and use of premium quality materials sourced from both domestic and international suppliers.
- By leveraging their innovative design capabilities and state-of-the-art production facilities, Paragon is able to meet customers' product application specifications and exceed their expectations.

Specification

Product Name	CP-4 Water Purifier System
Color	White
Size	77x420(mm)
Filter Material	Carbon Block
Certifications	NSF and KC certifications
Filter Replacement Cycle	1 Year
Origin	North America / U.S.
Material	PET
Effective Water Purification Quantity	3,500l(based on KC certification) 2,464l(based on NSF certification)

Paragon Water Care 1~5 Step

1st step

Removal of particulate contaminants and unpleasant odor.

Chloramine (disinfectant), chlorine, particulate class 1 (removal of particles with size of 0.5um or larger).

2nd step

Removal of fine particles and volatile organic compounds

Asbestos, cyst, lead, mercury, MTBE (isobutylene), turbidity, VOC (volatile organic compounds).

3rd step

Removal of pharmaceuticals and 15 new contaminants.

Reduction and removal of estrone (hormone), bisphenol A (environmental hormone), ibuprofen (anti-inflammatory drug), naproxen (anti-inflammatory drug), nonylphenol (surfactant), phenytoin (anti-seizure drug), and 15 new contaminants.

4th step

Removal of perfluorinated compounds.

PFOA (perfluorooctanoic acid), PFOS (perfluorooctanoic sulfonate).

5th step

This purifier filters out hazardous substances and protects minerals good for the body.

PARAGON SPECIALTY COFFEE (PF2 + SR6)

A tank-less water purification system for hot water. Prevent scale formation and even remove chlorine and heavy metals.

FEATURES & BENEFITS : Fresh, Refreshing Taste That Lasts A Long Time

A tank-less water purification system for hot water. Prevent scale formation and even remove chlorine and heavy metals.

(i) PF2 (Pre-filter) :

- Maximises the performances of SR6
- Filter Material : Polypropylene
- Nominal Micron Rating : 5 micron
- Removes RUST, LARGE PARTICLES, SUSPENDED SOLIDS

(ii) SR6 (Back-filter) :

- Filter Material : Carbon Block
- Nominal Micron Rating : 1 micron
- Removes CHLORINE, CHLOROFORM, COLOR, TURBIDITY, Mercury, Lead, Iron, Copper

Specification

Degree of Filtration 5 Micron Nominal (PF2) / 1 Micron Nominal (SR6)

Pressure Requirement 2.5 - 8.0 bar

Max. Flow Rate 5 gpm / 18.9 lpm

Size PF2 – 26.5cm (H) x 8.3cm (W)
SR6 – 49.0cm (H) x 8.3cm (W)

For You and Planet Blue.

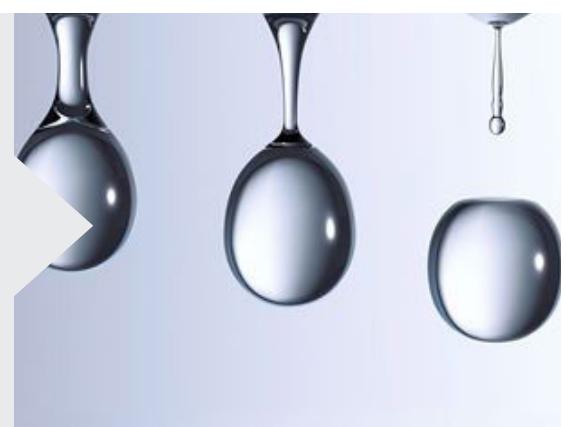

HISTORY OF BWT

- Since it was founded in 1990, BWT has been dedicated to its vision of perfect water. Today, this passion has enabled BWT to become Europe's leading water technology company.
- Their technical expertise in all areas of water purification makes BWT unique. Their in-house research and development departments, and the expansion of production facilities throughout Europe, have contributed significantly to the progress they have made, with sights permanently set on achieving maximum safety, hygiene and health in daily contact with water, the elixir of life.

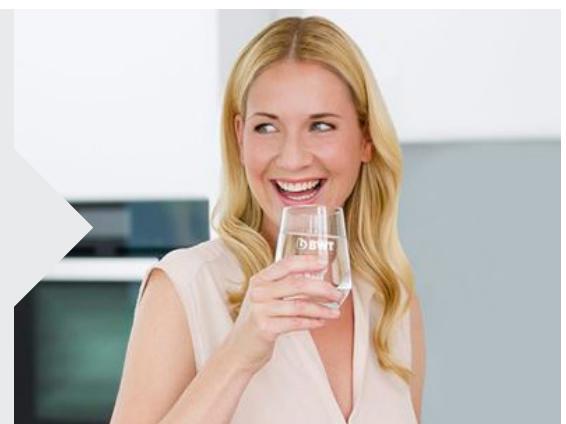

WATER INNOVATIONS BY BWT

- BWT constantly striving to develop existing technologies even further and turn new ideas into ground-breaking products. Their research and development departments are focused on pioneering innovations in all the areas of water technology..

BWT PRODUCTS

- BWT offers a wealth of innovative products and technologies for a wide range of applications, all meeting the water quality needs of private households, industrial sites, public facilities, swimming pools, the Hotels & Hospitality sector and hospitals.
